KLANG.

MR. W. W. Douglas, the District Officer of Klang, in his report for January, mentions that, during that month, Messrs. F. W. Wiggin and E. V. Carey applied for one and four blocks of land, 320 acres in area each, on the Jalan Kabun and at Bukit Raja, adjoining the Sungei Binjei Road, respectively. The balance of applications for customary holdings on 1st January was 410, and the number of applicants during the month 106. The number of applications for customary holdings demarcated during the month was 126 for an area of 592 acres. Owing to the illness of Mohamed Zin, demarcator, stationed at Damansara, the area demarcated was not so great as it would otherwise have been. Moharred Zin, owing to his bad state of health, has resigned.

At the Anglo-Chinese School, Klang, with 27 names on the register, the average attendance, with the school open on 22 days, was 22. Owing to the site of the late temporary building being required for the new school house, which is being built by Towkay Lok Yew at a cost of some \$1,700, it has become necessary to open the school, in the meanwhile, in a building near the west end of Rembau Street. Towkay Lok Yew intends the new school house, now in course of construction, to be called the "Lok Yew Anglo-

Chinese School."

On the 3rd the District Officer went, in company with Mr. Carey, along a portion of the trace of the Sungei Binjei Road and to Bukit Prah Lanti, where there is a small settlement of Sakais, and also a ladder constructed up a high tree, from which good observation of the surrounding country can be made. He went partly up this ladder with the object of seeing whether the continuation of the trace of the Sungei Binjei Road would come in contact with any hills before reaching the range or series of hills of which Bukit Panjang forms one, to the south of Ijok, to which place the road is to be constructed. From the point of observation to Bukit Panjang and the adjacent hills the country appeared entirely flat for a distance of some ten miles, more or less.
